

SECURITY VIDEO RECORDING

Airship can turn your old VCRs green. In two **very important** shades.

Environmental Green

The-Color-of-Money Green

Get green with Airship.

ENVIRONMENTAL GREEN

VCRs are a thing of the past, technologically speaking.

They're also a thing of the past when it comes to the environment! They fill landfills with worn-out videotapes and recorders.

Digital recording doesn't create landfill waste, and on top of that, Airship has a free **Green Appeal** program that pays to have your old VCRs recycled rather than thrown away. 100% on our dime when you buy an Airship Digital Video Recorder.

Visit airshipdvr.com/green to learn more.

THE-COLOR-OF-MONEY GREEN

Airship digital video recording is so much more cost-effective than VCR recording that **most systems pay for themselves well within the first year.**

No more time-consuming video search, no more replacement tapes and VCRs.

To learn more about how much green you can save by upgrading from VCR to DVR recording, **visit airshipdvr.com/green**
